HANDS BAD WITH SALT RHEUM

Small Water Pimples on Fingers, Itched and Burned. Painful and Sore Cracks. Cuticura Soap and Ointment Cured in a Month.

Brooklyn, Me.—"A few years ago my hands were very badly afflicted with salt rheum. At first there was an eruption of small water pimples on the inside of the fingers, and by not paying any attention to the humors my hands gradually became worse and began to itch and burn and one after another cracks appeared around the nails, on the inside of the fingers and on the bend of the joints until I was discouraged, as they were very painful and sore. I had to omit work that required putting my hands in water and could hardly work at all on account of the bleeding cracks.

"I finally procured some Cuticura Soap and Ointment, and I found by washing my hands in quite warm water and Cuticura Soap that they were improving. I began wrapping my fingers nightly in pieces of soft linen, after a good application of Cuticura Ointment which was very soothing. In a month my hands were completely cured and I have never been afflicted with the trouble since." (Signed) Mrs. C. L. Parker, Nov. 22, 1912.

Latest Ring Swindle.

Up in Webster some credulous persons, and having perhaps a trace of avarice in their systems, have been nearly swindled by a clever ruse, which, having been discovered, has received considerable publicity. Having bought a supply of "diamond" rings from some five and ten cent store of dubious value, the purchaser proceeds to "find" one in the presence of a man who looks as if he might fall for the game. The ring might be picked up by Rev. A. D. Coats, D. D., secretary of the Baptist state convention, Baptist churches in towns hereabouts represented by delegations at the ordination. Among the visiting clergymen was Rev. P. S. Cosman of Rockville, Mass., formerly pastor at East Killingly.

Two Years of Road Building.

MADAM: You'd consider it quite an honor, wouldn't you, to be known as the most economical as well as the best of good cooks. Well, Serv-U-S Macaroni has a distinction something like that.

It is the food with which you can reduce the cost of living

and yet strange to say it has as much nourishment and nutrition as the most expensive food—Beef Steak. It is a great muscle builder, and ideal health food. One pound of Serv-U-S Macaroni will go just as far in giving a man strength as a pound of meat and it costs less than 1/4 as much.

It has no waste matter—no bones and gristle which you can't eat but must pay for. Meat is 1/4 water in composition. Serv-U-S Macaroni is 1/4 solid nourishment.

Besides Serv-U-S Macaroni is so easily prepared. It takes one to two hours to boil meat—but only 20 minutes to prepare Serv-U-S Macaroni in a number of delicious ways.

You can enjoy it in soups and stews. It is very tasty with fruit or tomatoes—and it is especially delicious prepared like a potpie with grated cheese and tomatoes.

Must Keep Moving.

There is a saying that "youth will be served." The words have a very wide significance. It is not simply youth in the personal individual sense; it is the new development of thought, the growth of idea and opinion, the mode in which the age shapes and expresses itself, that must and will have their way. We'll for us if we can move and grow with them; if not we shall be left behind, we become solitary and isolated.

It is right enough that we should cling to that which we know to be good; but we must also be willing to welcome the manifestations of the good. It is as narrow to condemn a thing merely because it is new as it is to condemn it because it is old.

Yesterday's truth will never be tomorrow's lie; but that which seemed a truth yesterday may perhaps be proved to be a lie tomorrow. It is not well for us to cleave to the old fidelity just because we knew and loved it.

This is one of the sternest lessons that middle aged and old persons have to learn. If they have cast themselves in too rigid a mold they have to pay the price. If they will unlearn nothing, abandon nothing, they will be left to loneliness and discomfort. They will find that the real changes they have to face are chiefly superficial after all—not greatly to be dreaded when once they are faced courageously.

Each generation speaks for itself, and the words sound purring at first; each generation brings its own dress and fashion, in thought as in actual garb; each age thinks its own way best and past ways mere foolishness. We can afford to look deep and not be startled by the new modes;

we know that the verities of human life and character remain at bottom the same. Knowing this as a certainty should not render us bigoted and averse from all progress. If it does we must suffer exceedingly.

Proves They're Still Feminine.

Would Enhance Comfort.
